BACKTRACK BLUES BAND/Make My Home in Florida

If the Butterfield gang had been younger and healthier, they might have been this crew. Blasting out the white boy blues for almost 40 years, they know a party and how to party. This set, a cd and DVD collection, shows them kicking it out live and getting the word out farther around than their Florida base. Solid pros throughout, they know how to take you back to the day even if you weren't there the first time around. A tasty set that works well for all white boys with the blues. – Chris Spector
